Plans also were laid for the publication of a new Borderland map, including routes from ocean to ocean, through the south, and to various points in Arizona. An urgent demand is said to exist for such a map.

A committee also was appointed to cooperate with the chamber of commerce of New York and of the United States in seeking legislation "to secure uninterrupted railway service."

Candidate for state treasurer, John A. Campbell; Jerry Campbell, candidate for representative; J. P. Redmond, candidate for the lower house of the legislature; E. A. Watkins, can-

didate for the state senate; C. W. Ruth, candidate for county treasurer, and R. S. Green, candidate for justice of the peace of Lowell precinct, spoke briefly before the assemblage.

The meeting was one of the best held in Republican politics in the history of the Warren District. President Bertram L. Smith was succeeded for the occasion by E. J. Flanagan who presided to the satisfaction of the host of Republicans present.

Each candidate for office, both county and state, present made brief talks to the club, voicing their belief in Republican principles as they affect national, state and county politics. Each declared his belief in the possibility of Republicanism being successful over what they, one and all, termed as "Hunt machine politics."

The club, after making arrangements for a reception committee to meet and accommodate the Campbell party which will arrive this morning, adjourned until next Wednesday evening when it will meet at the Medgovich hall.

ATHENS via London, Oct. 4.—King Constantine presided over the crown council held at the palace this morning to consider written opinions of the situation submitted by each minister to which the minister's resignation was appended to be accepted in case the opinions were unsatisfactory to the monarch.

The minister of the interior, Loucas Roufas, the minister of communications, Lyssandre Kaftandjoglou, and the minister of justice, M. Vokotopoulos, opposed Greece's entry into the war.

## SECRETARY OF WAR DEFENDS WILSON'S 8-HOUR DAY POLICY

NEW YORK, Oct. 4.—Newton D. Baker, secretary of war, defined President Wilson's approval of the 8 hour day for railroad trainmen in an address here today at a mass meeting of women, held under the auspices of the women's bureau of the Democratic national committee.

"Recently," said the secretary, "an issue has arisen in the form of the 8 hour law. (My father was the railroad physician at a terminal.) I believe in the 8 hour law for men who operate a railway. I have seen men come to our door and awaken my father at all times of the night, because of the wrecks caused by engineers who had been asleep. Engineers used to work 20 hours continuously in their cabs in those days. If we should look at the victims of railway accidents in this country in the aggregate the number would be beyond that of all the victims of the great battles of the Marne and Verdun.

"We want our railway men in full vigor, with full senses for a man's command of a dangerous day's work." "President Wilson," added the secretary, "considered himself as representing the innocent bystander likely to suffer because of an argument between two groups of gentlemen. He asked congress for the passage of the 8 hour legislation. He met the issue of the moment when there was not a week's supply of food ahead in the cities of the country."

### FEDERAL CENSORSHIP OF FILMS NOT POPULAR

NEW YORK, Oct. 4.—Comparing films to the press, free speech and the drama, and declaring that to attempt to censor them by legal steps would be dangerous in a democracy, the National Board of Review of Motion Pictures has sent a statement to President Wilson, expressing opposition to the federal censorship of motion pictures.

In its arguments against the censorship plan, the statement asserts that in reply to questions sent to the mayors of cities throughout the country only one of them expressed willingness to have the responsibility for the character of films shown taken from the local officials, while opinion was divided as to extent which federal censorship would be satisfactory to the general public.
